

# SHE SHA HANDLES

**The perfect mix – the SHE SHA smoke evacuation in combination with our length-adjustable smoke evacuation handles.**

**NEW – SHE SHA handle with NON-Stick electrode**

The handle extracts surgical smoke directly at their source. The new adjustable handle with a NON-STICK electrode provides excellent cutting and coagulation performance with even less sticking of tissue.

**NEW – More Flexibility**

Both SHE SHA length-adjustable handles, with standard as well as with NON-Stick electrode, can be combined with our new needle electrode.

**SHE SHA HANDLES**
